The Active and Assisted Living Programme is organising its third investors' event to be hosted during the Austria Info Day, in the framework of its new AAL Market Observatory initiative. This Investors' Event will take place on Friday 16 February 2018 at 11:00-13:00, and will offer six dynamic young companies with credible solutions for ageing the opportunity to present their work to investors. AAL Market Observatory is a project that will run until December 2018 and aims to contribute to communication and dissemination activities of market and investment trends, events and new technologies. It supports the ActiveAdvice Information & Awareness Hub which is a new searchable electronic database on AAL technologies and aims to become a trusted reference site that will continue to provide services to the community after the end of the project lifetime.

The event is just one way the project will raise awareness and continue to support and develop an engaged AAL community of developers, users, and investors.

For more information on the AAL Market Observatory, please contact Mr Marco Carulli at AAL Association by email at [marco.carulli@aal-europe.eu](mailto:marco.carulli@aal-europe.eu) (<mailto:marco.carulli@aal-europe.eu>) or the project manager at Technopolis Group, Dr Peter Varnai by email at [aal-market-observatory@technopolis-group.com](mailto:aal-market-observatory@technopolis-group.com) (<mailto:aal-market-observatory@technopolis-group.com>).

The event is open to the public, prior registration is mandatory.
