Online

The FET Program provides in its last calls under H2020 approximately 280 Mio. Euro for groundbreaking technological research in almost any discipline. The webinar will give a brief overview of the two funding schemes, will touch upon the typical projects and the evaluation criteria in each category, and it will give a few suggestions on successful project preparations.

- > Most of the FET budget is earmarked for **FET Open** projects which are **truly revolutionary** and **unthought-of**.
- > Second part of the budget is reserved for **FET proactive** projects which are meant to proceed further with the development and to nurture the respective R&D community in selected areas.

Language: **English**
