Learn from the
Future

Join our Lighthouse Farm Labs at the Lighthouse Farms to learn from outstanding examples of operating farms who have managed to unlock their own path toward sustainability.

Apply the knowledge that you have learned together with other participants in group work.

Lighthouse Farm Labs

Nächstes Farm Lab:

22. September bis 26. September 2025, GRAND FARM

Austria: Soil Health

September 30 - October 4

Exploring soil health as a holistic approach to creating resilient food systems:
An on-farm perspective, rooted in science

Program Overview

September 30th - October 4th 2024

1	2	3	4	5
Shades of Green	Soil as a Superhero	Every Soil is Different	Carbon for Soil, Not Soil for Carbon	Reflections
Approaches to sustainability on GRAND Farm & Garden	Soil observations: physical aspects	Indicators of success: the need for context specificity in monitoring	Carbon credits and market gardening	Group work presentations and feedback
Vermicomposting and market gardening at VERMIGRAND	Soil is alive: from soil as a medium for growth, to soil as the heart of a system	Different soils, different farming systems... Same landscape?	From local to global: soil carbon and policy	What will you take home?
Soil health in "sustainability"	Feeding the soil	Practices, results, and outcomes	Field experiments	
Group work: Visions for the future	Group work: What are the challenges?	Group work: How do we measure success?	Group work: Who needs to be involved?
