

FIGHTING CRIME AND TERRORISM

PITCH SESSION

- **Location:** *Sweden / Stockholm*
- *Swedish Governmental Agency for Defence and Security research*
- **Experience:** *Extensive participation in international projects both as coordinator and participant. Broad experience in detection of illicit substances*
- **Contact:**
 - *Patrik Krumlinde*
 - *Senior Scientist*
 - *patrik.Krumlinde@foi.se*
 - *+46 709 277 094*

YOUR TARGETED TOPIC

[SU-FCT02-2019](#)

Trace qualification

List your 3 major needs

- *LEA:s and Forensic institutes*
- *Detection device specialists*
- *Industrial partners*

- *Field-deployable instruments and procedures for trace composition analysis in pre and post related scenarios. Robotized near real time, chemical specific detection principles with focus on illicit drugs and explosives detection.*
- *Our need for complementary skills:*
 - **LEA:s**
 - **Forensic institutes**
 - **SME:s within the area**
 - **Manufacturing of detection and robotics**
 - **Universities and research institutes experienced in the domain**

- *Skills*
 - Extensive experience in project coordination. Accredited OPCW lab.
- *Tools*
 - Detection techniques and analytical methodologies.
- *Demo center*
 - Facilities for large scale testing and demonstration of illicit materials including drugs and explosives.
- *Infrastructures*
 - Testing capabilities for illicit materials such as explosives and drugs. Laser-lab, chemical lab and site for explosive and drugs manufacturing and testing.
