

COMET Centre (K1)

SBA-K1

>> **Main location:** Vienna, Austria

>> **Thematic focus**

(1) Networked Systems Security, (2) Software Security, (3) Privacy and Secure Societies, and (4) Applied Discrete Mathematics for Information Security

>> **Planned realisation and outcomes**

For all our partners, IT-Security is a prime directive and their competitive advantage depends on foundational research. SBA Research conducts highly specialized projects to bridge fundamental research with the needs of our partners from all industry sectors, like banking, advanced manufacturing, software development, and institutions in the health care sector.

>> **History of establishment**

Starting in 2006 as a TU Wien spin-off with a national focus, we became an established contributor to security research and grew in terms of staff to more than 120.
