

PROSECCO – PROcessing data streams in a SErverless edge-Cloud COntinuum with

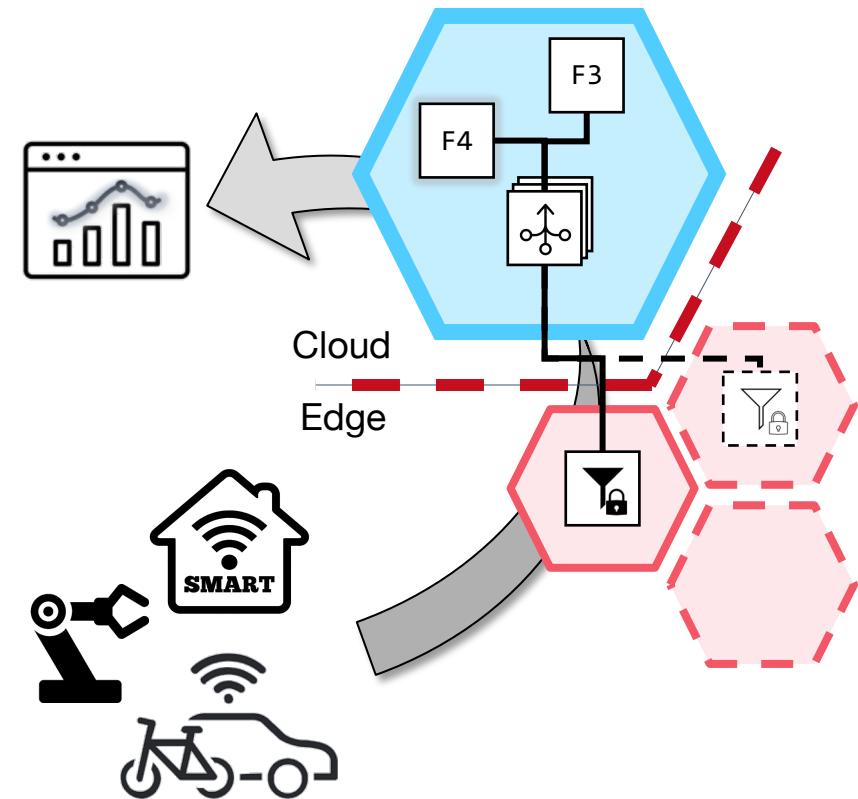

TU Berlin, Information Systems Engineering

Bringing our experience in practical, quality-driven

for **Stream Processing in a Serverless Edge-Cloud Continuum**
with benefits through

- Simplified Programming Model
- No Operational Tasks
- Adaptive Resource Utilization
- Scale-to-Zero
- Ad-hoc Analytics
- Unified Tooling for Industry 4.0 / SmartHome / SmartMobility Analytics
