*Austrian research Promotion Agency (FFG)
Sensengasse 1, 1090 Vienna, AUSTRIA*

Supplementing national specifications to the common call framework of the transnational “MARTEC Call2014”

Additional to the common regulations of MARTEC, the “Guidelines of the Instrument: Cooperative R&D Projects (Version 1.0)” are valid. Still, there are some exceptions:

- *Additional to Chapter 1.2 and 1.3 it is also possible to participate as **single Austrian** partner in a transnational consortium.*
- *The **criteria for consortia** (see Chapter 1.2) apply in this call to the transnational consortium instead of just the Austrian consortium.*
- *If in your project are **more than one Austrian partners**, you have to nominate one leading partner. The leading partner submits the national cost-sheets at the FFG eCall.*
- ***Chapter 1.9:** The project description (full proposal form) is uploaded only at the MARTEC website. Additionally Austrian partners register to the **FFG eCall** and upload the **national cost-sheets only**.*

Additional documents are mandatory for Austrian applicants (you find them in the FFG DOWNLOADCENTER: <https://www.ffg.at/downloadcenter-martec2014>)

- *National cost-sheets (.xls)*
- *Guidelines of the Instrument: Cooperative R&D Projects (Version 1.1)*
- *Guidelines for eligible costs (Kostenleitfaden, Version 1.4)*
