

MARIE SKŁODOWSKA-CURIE ACTIONS INDIVIDUAL FELLOWSHIPS (IF)

The goal of the Marie Skłodowska-Curie Individual Fellowships (IF) is to **enhance the creative and innovative potential of experienced researchers**, wishing to diversify their individual competence in terms of skill acquisition through **advanced training, international and intersectoral mobility (between academic and non-academic sector)**.

Individual Fellowships provide opportunities to acquire and transfer new knowledge and to work on research and innovation in a European context (EU Member States and Associated Countries) or outside Europe. The scheme particularly supports the return and reintegration of researchers from outside Europe who have previously worked here. It also develops or helps to restart the careers of individual researchers that show great potential, considering their experience. Furthermore, researchers wishing to realize a project in the non-academic sector are supported. Applications are made jointly by the researcher and the beneficiary (the host organisation) in the academic or non-academic sectors. Alike the other Marie Skłodowska-Curie Actions, IF follow a **bottom-up approach**, i.e. research fields are chosen freely by the applicants.

- » **European Fellowships** are held in EU Member States (MS) or Associated Countries (AC) and are open to researchers coming to Europe or moving within Europe to carry out research projects for the duration of **1-2 years**.
- » **Return and reintegration of researchers (RI)** into a longer term research position **in Europe**, including in their country of origin, is supported via a separate multi-disciplinary reintegration panel of the European Fellowships.
- » Support to individuals to **resume research in Europe after a career break (CAR)**, e.g. after parental leave, is ensured via a separate multi-disciplinary career restart panel of the European Fellowships.
- » Researchers seeking to work on **research & innovation projects** in an organisation from the **non-academic sector** are supported via a separate multi-disciplinary **society and enterprise panel (SE)** of the European Fellowships.
- » **Global Fellowships** are based on a secondment to a third country (i.e. not a MS or AC) for **1-2 years** and a mandatory **12 month return period** to a European host.

DEFINITIONS

- » **Experienced researcher:** with PhD or at least 4 years of research experience
- » **Academic sector:** Public or private higher education establishments awarding academic degrees, public or private non-profit research organisations whose primary mission is to pursue research, and international European interest organisations.
- » **Non-Academic sector:** Any socio-economic actor not included in the academic sector (e.g. private enterprise companies, hospitals, museums, ministries, etc.)

FACTS

Specific Programme: Excellent Science:
Marie Skłodowska-Curie Actions

Project duration: 12-24 months (European)
12-24 months plus 12 months return phase (Global)

Budget: EUR 248,7 million (2017)

Next Call: H2020-MSCA-IF-2017

Call opens: 11 April 2017

Deadline: 14 Sep 2017 at 17:00 Brussels time

ELIGIBILITY CONDITIONS (AT THE DEADLINE FOR SUBMISSION OF PROPOSALS):

- » **Mobility rule:** At the time of the deadline for submission of proposals the researcher must not have worked or resided in the country of destination for more than 12 months within the past 3 years. **Note: Special mobility rule for the panels RI, CAR, SE:** researchers shall not have resided in the country of their host for more than 3 years in the 5 years immediately prior to the relevant deadline.
- » For the **European Fellowship**, the researcher can be of any nationality, but must comply with the mobility rule in the country where the European Fellowship is held.
- » To qualify for the **career restart panel**, researchers can be of any nationality. They must not have been active in research for at least 12 months immediately prior to the deadline for submission.
- » The **reintegration panel** is open to nationals or previous long-term residents of MS and AC (i.e. having completed a period of full-time research activity of at least 5 consecutive years). Mobility shall be into Europe.
- » For the **Global Fellowship**, the researcher must comply with the mobility rule in the country where secondment takes place (not for the return phase). Global Fellowships are open to nationals or long-term residents of MS and AC.

FUNDING

The contribution of the European Commission will cover the activities of the researcher as well as part of the costs for the implementation of the project.

Contribution to the researchers [person/month]:

Living allowance*	4.650 €
Mobility allowance	600 €
Family allowance	500 €

* A correction coefficient applies to the living allowance, reflecting the cost of living of the host country (e.g. Austria: 104,8%)

Contribution to the host institutions [person/month]:

Research, training and networking costs	800 €
Management and indirect costs	650 €
