

# INVITATION

## 10 YEARS JOINT PROGRAMMING

**Achievements and the Way Forward**  
**19 – 20 September 2018, Vienna**

In 2018 the Joint Programming Process (JPP) turns 10 years. To celebrate this and exchange on the JPIs' achievements and potentials, the Austrian Federal Ministry for Transport, Innovation and Technology – BMVIT and the Austrian Federal Ministry of Education, Science and Research – BMBWF invite you personally to a gala dinner on 19 September 2018 which is followed by a one-day conference on 20 September 2018 organised jointly by the 10 JPIs.

### **Gala Dinner**

The gala dinner to celebrate the 10th anniversary of the JPP will bring together actors from Member States and European Commission involved in the set-up, governance and implementation of JPIs. The event will thus offer opportunities to exchange with and among the JPIs, their partners and stakeholders.

### **Conference**

The one-day conference aims at gathering the main stakeholders of the JPIs, to share their experiences in developing and implementing challenge-driven R&I programmes and exchange on possible contributions towards Sustainable Development Goals. Especially with regard to FP9 and the introduction of missions, the JPI model can serve as a reference.

### **DATE AND TIME**

#### **Gala Dinner**

19 September,  
18.00 – 22.00 (GMT)  
MuseumsQuartier,  
Museumsplatz 1,  
1070 Vienna

#### **Conference**

20 September,  
08.30 – 17.00 (GMT)  
Wolke 21,  
Leonard-Bernstein-Straße 10,  
1220 Vienna

## Programme

- Opening Speech:** Jean-Eric Paquet, Director-General DG RTD, European Commission (requested)
- Key note:** **The relevance of science-policy cooperation for implementing SDGs**  
Sir Peter Gluckman, Chief Science Advisor to the Prime Minister of New Zealand
- Session 1:** **10 years JPIs – 10 journeys of how to build ‘challenge-driven’ R&I programmes**  
Achievements and good practice examples will be presented and discussed with representatives of the main stakeholder groups – from research, policy and society.
- Session 2:** **JPIs (re-)structuring the landscape**  
As intergovernmental partnerships JPIs can act as European hubs for coordinating and aligning research and innovation. Manifold relationships and cooperation have been established and the potential for further strengthening of the European R&I landscape will be discussed.
- Session 3:** **The role of JPIs in European and international policy making**  
On European and international scales high emphasis is given on strengthening science-policy relations and enhancing the impact of European R&I for policy and society. The potential contributions of JPIs to the future European missions will be reflected.

### TARGET GROUPS

Representatives of JPIs,  
GPC and ERAC,  
national policy makers  
and European Commission
